

# Shinkiba Woodwork Club

Shinkiba Woodwork Club holds a meeting on the 4th floor of Wood and Plywood Museum once a month. At the monthly meeting, shopmade woodworking jigs are presented and demonstrated.

## Previous presentations

Upholstered box lid

Thickening

Mortising

Compound miter

Halving joint

Band and cleat

Wooden body camera

Also, we participate in the DIY show (also known as JAPAN DIY HOMECENTER SHOW) held in Makuhari Messe in August every year.

## Schedule

The monthly meeting starts at 10:00 and usually ends at around 15:30 on the second Saturday of each month.

18th February (This is the third Saturday)

24th February (Ian Dalton's Dovetailing Class/Applicants only)

11th March (We might change the date)

8th April

13th May

10th June

8th July

16th August

24th-26th August (Japan DIY Home Center Show at Makuhari Messe in Makuhari, Chiba prefecture.)

9th September

14th October

11th November

9th December (Year end-party after meeting)

## Ways to participate

No reservation is necessary for those who participate for the first time or for the second time or thereafter. Just come to the venue (the 4th floor of the Wood and Plywood Museum) at 10:00 on the day.

Fill in the name at the reception and pay 500 yen for the participation fee. There is no membership or annual fee.

Please wear a name tag so that we will know your name.

When you enter your email address at the reception, you will receive notification of events, workshops, year-end party, and other notices.

Please bring your own lunch. (Participants talk about fun woodworking at lunch time.)

## At the monthly meeting

We have a wide range of members from beginner to advanced.

We enjoy listening the presentation and commentary of the presenter. Some take notes and photos. After each presentation, there is active Q & A session.

Apart from the presentation, there is the introduction of a short story, woodworking information, etc. we welcome anything about woodworking related matters.

So please do not hesitate to actively challenge the presentation.

We have a basic manner for our meetings and activities. For example, positive opinions and comments, advise, suggestions are greatly appreciated, but negative comments are to be refrained.

Making and using shopmade jigs based on the ideas of our members is welcome but commercialization is prohibited.

If you make a presentation of your jig that is accredited to someone else, please give the name of the original inventor.

We may take photos and video shoots at the monthly meeting.

We will make it into a DVD and sell it at DIY show and other places.

The profit helps the operation of the club.
